Rewriting the Laws of Wealth, Access, and Energy Flow

OUR PURPOSE

The laws that built the old economy are collapsing.

Access is gated, opportunity is centralized, and capital remains trapped in closed systems.

Investo exists to rewrite those laws.

We're turning capital into a living flow between people, ideas, and opportunity.

A new era where wealth circulates—not accumulates.

The problem?

The old laws of investment are broken.

Gatekeepers still control private markets and retail investors are excluded. Founders chase funding through fragmented, outdated channels. Capital moves like water through rusted pipes—slow, limited and inefficient.

There is no real flow!

THE NEW LAW: CAPITAL AS ENERGY

Energy cannot be created or destroyed—it only changes form.

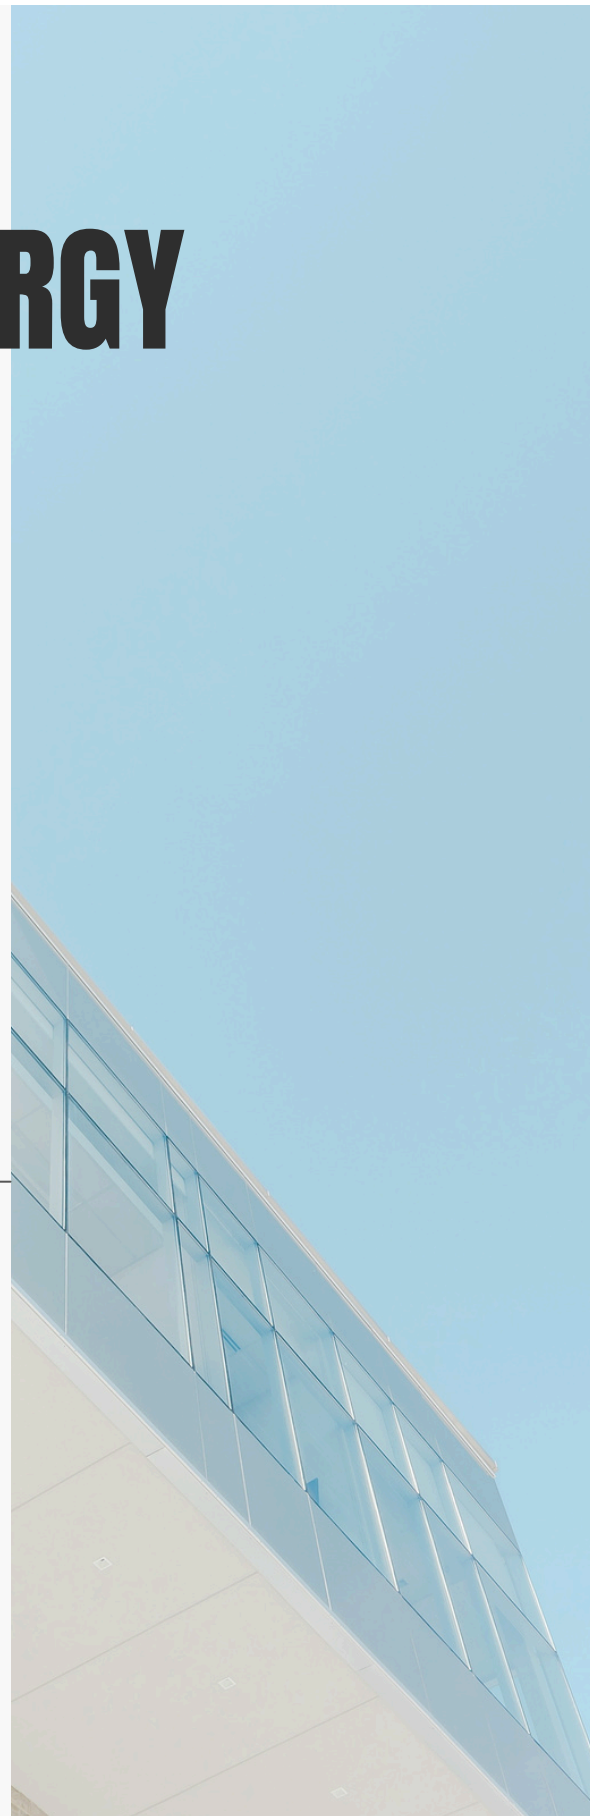

Investo applies that law to wealth.

We treat capital as energy:
constantly circulating, fueling
creation, and returning value to the
network.

From investor → to idea → to
company → back to society.

Not a marketplace.

A living, breathing ecosystem of
motion.

THE SOLUTION: INVESTO

Investo is the world's first social-driven investment ecosystem.

A seamless fusion of community, capital, and cognition.

It's not just where people invest—it's where ideas become currency and investors become creators.

The flow of information, funding, and opportunity—unified for the first time.

The Investo Investment Creation Lab (IILC)

Investo doesn't wait for opportunities—**it creates them.**

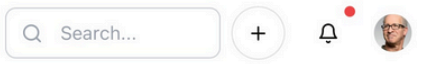

Through the IILC, expert teams identify untouched industries and form new ventures—from resorts to renewable energy.

Investors co-own these businesses via SPVs, while Investo retains 10–20% equity.

We don't predict the future. We manufacture it.

THE EXPERIENCE

- **Home Feed:** a social hub where investors and founders connect, share insights, and learn. Conversations turn into opportunities and discovery feels effortless. Every scroll expands your network, perspective, and potential reach.

Announcement

Aug 24, 2023

Just closed our latest seed round for EcoTech Solutions! Excited to see how this company revolutionizes sustainable energy storage. #GreenInvesting #CleanTech

- **Investment Feed:** verified startups, businesses, and real-estate opportunities in one scroll. It unifies all private-market deal flow in one place, blending transparency with personalization through AI-driven recommendations. Each opportunity is presented clearly, with real metrics and investor-ready details.

- **Exit Alley:** a secondary marketplace bringing liquidity to private assets. For the first time, investors can resell or buy equity in previously illiquid ventures — bringing real flexibility to private investing. It creates a continuous market where opportunity never stops moving.

Portfolio Breakdown

Home Investment Marketplace Live **Portfolio** Profile

- Profile:** verified identity for the modern investor. Your digital investment persona — with badges, verified KYC, and credibility metrics that build trust across the ecosystem. It's more than a profile; it's your professional presence in the new age of capital.

THE ECOSYSTEM

Three worlds in perfect motion:

Startups & Businesses gain exposure and funding.

Real Estate & Assets become tokenized and tradable.

Investors & Communities collaborate, diversify, and grow together.

Each transaction fuels the next—a perpetual flow of opportunity.

THE STRUCTURE

It's Simple, compliant and scalable.

- **Under \$100K** → pooled through regulated SPVs
 - **Over \$100K** → option for direct equity
 - **Over \$1M** → direct investment by default
- SPVs are based in Delaware, Cayman, and Luxembourg for global compliance.
Clean cap tables. Retail access. Institutional integrity.

MONETIZATION

Monetizing the flow of capital—without friction.

- 3–5 % transaction fees
- Boosted listings for visibility
- Investo Pro memberships
- SPV management fees
- Secondary-market commissions
- Wallet staking yields
- 10–20 % equity in ILLC-created ventures

Every interaction creates value.

INTELLIGENCE ENGINE

AI and syndication power exponential engagement.

- **Fit Score** — personalized deal recommendations
- **Syndicate Squads** — group investing for larger rounds
- **Live Market Pulse** — real-time ecosystem data
- **Mentor AI** — guiding founders to better fundraising outcomes
- **Idea-Stage Investing** — funding raw ideas through SAFE + escrow structures

Investo isn't fintech—it's financial intelligence.

LEGAL FRAMEWORK

Built for global scale and regulatory clarity.

- **Holding company:** Delaware (USA) or Cayman Islands
- **Regional hubs:** UK, Estonia, Dubai, Singapore
- **Compliance:** SEC · FINRA · FCA · ESMA · DFSA · MAS
- **Full KYC/AML identity** layer integrated across the system

Legally global. Structurally bulletproof.

PHILOSOPHY

Rewriting the laws of wealth.

Old world: wealth is scarce, controlled, and exclusive.

New world: wealth is energy—shared, adaptive, and regenerative.

Investo channels that energy into a collective economy where everyone participates in creation, not just consumption.

BUSINESS FLYWHEEL

A user joins → connects and engages.

Discovers opportunities → invests or shares.

Visibility attracts more users → increases liquidity.

Liquidity drives revenue → funds new IILC ventures.

The cycle repeats.

A perpetual system of growth.

MARKET OPPORTUNITY

Private markets are a \$25 trillion universe—and still 95 % locked away.

Real-estate tokenization will exceed \$16 trillion by 2030.

400 million retail investors are searching for access.

Investo sits at the intersection of crowdfunding, social finance, tokenization, venture capital, and AI investing.

The convergence is inevitable—and we're building its platform.

TRACTION & FUNDING

We're raising \$500,000 in pre-seed capital to complete our functional MVP, secure our compliance layer, and onboard the first 5,000 investors and founders on the platform.

This gives us 15 months of runway and sets the foundation for our next growth round.

Investors join at the foundation of a global financial revolution.

USE OF FUNDS

- 30 % MVP development
- 25 % Legal structuring & licensing
- 20 % Marketing & community growth
- 15 % Team expansion & operations
- 10 % Strategic reserves & partnerships

Capital flows with purpose—not waste.

WHY NOW ?

- Global appetite for open investing
- Tokenization & SPVs legalized
- Fintech merging with social behavior
- Investors demand liquidity, not lockups
- Culture rewards participation over speculation

The decade of democratized capital has begun.

Investo rewrites the laws of wealth for the next generation!

OUR TEAM

Andi Aliti
Founder
*visionary architect
redefining access to
investing.*

- **Advisory Circle:** fintech, legal, and venture experts.
- **Partners:** global legal, financial, and technology collaborators.

CLOSING VISION

Every civilization advances when it learns to move energy better.

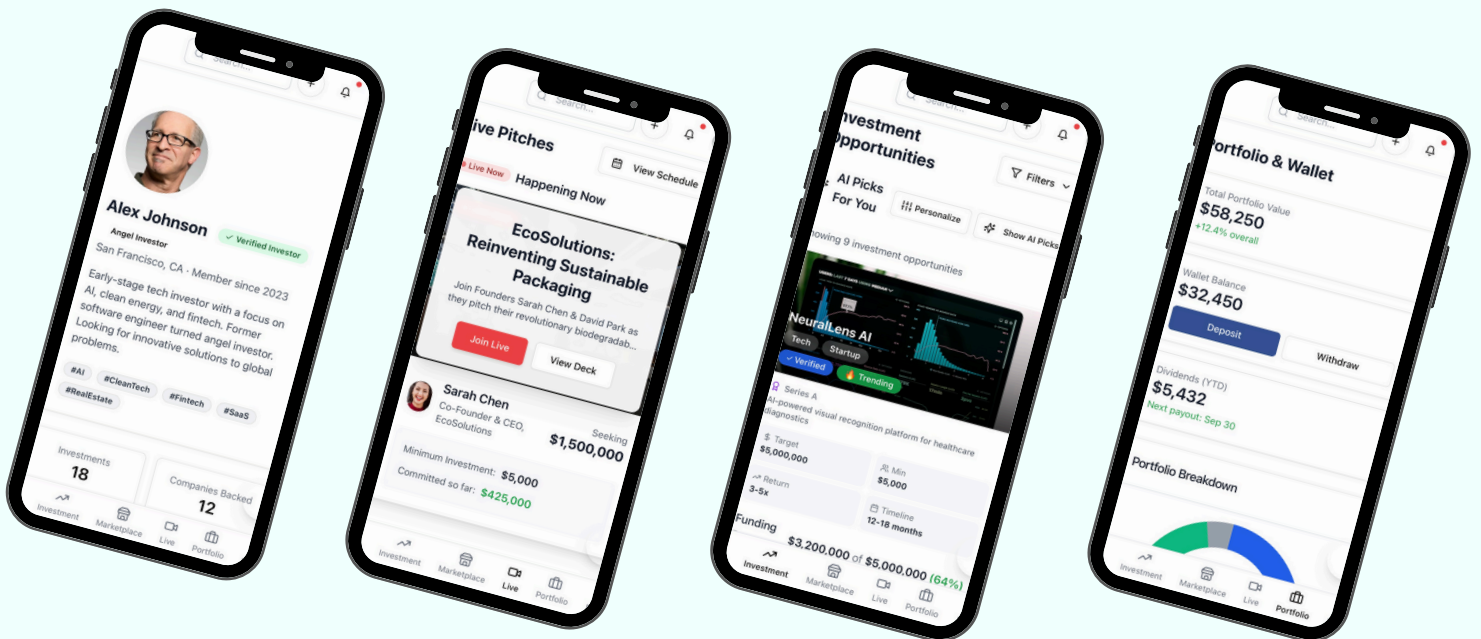

Fire powered survival.

Steam powered industry.

Electricity powered technology.

Now, Investo will power capital.

We're not changing how people invest— *we're changing what investing means.*

THANK YOU!
